_____ is enrolled at Messiah Lutheran Preschool for the 2017 – 2018 school year. Due to the seriousness and changing nature of allergies we need to know that our facility is a safe place for _____.

We are a multi-use facility and preschool classrooms are used by other groups. These groups may be in the building on any day of the week. We have no control over food and drink items that may be brought into these rooms. Contact and spills occur that we know nothing about. Also, children put toys in their mouths and germs and allergens can be passed by close contact in the classroom. Craft projects sometimes use food items and ingredients.

We can make reasonable accommodations such as vacuuming daily, cleaning table surfaces, hand washing of children, asking preschool families to help by not bringing nut products into the school, and asking individual families to furnish all food items for their child with allergies. We have no licensed medical personnel on staff. Our teachers meet childcare requirements for First Aid and CPR and are hired as educators.

I understand the use of the facility and the training of staff. This is not a problem for the above-mentioned child and I am comfortable having him/her attend Messiah Lutheran Preschool and release Messiah Lutheran Church and Preschool from medical liability.
